2023 - 2027

- Proficiency in software modeling and computational solutions.
- Knowledge of OOP and algorithms.
- Current focus on computing systems, security, computing environments and connectivity.
- Proactive approach to seeking learning opportunities.
- Enthusiasm for applying knowledge to real-world projects.

Alura — Course

2022 - IN PROGRESS

I currently have 34 courses and 4 complete training courses on the Alura platform, with these courses I learned all the knowledge listed in the “HARD-SKILLS” topic, in addition to studying computer networks and pen testing.

PROJECTS

Active participation in the JovemTech extracurricular project, where we train young people from underprivileged communities. I'm in charge of teaching Python.

Access all my projects posted on [GitHub](#) or on my [Portfolio](#) website.

HARD-SKILLS

SQL | Creation of DB and DBMS.

Java and Python | Creation of applications with and without GUI.

HTML, CSS and JS | I developed some websites.

Terminal | Basic understanding in [Windows](#) and [Linux](#).

Git and GitHub | Good level of knowledge in versioning applications.

LANGUAGES

I speak native Portuguese, advanced English and I learn basic Russian.
